Rice University - Houston, TX August 2023
Certificate in Full Stack Web Development

University of Houston - Houston, TX May 2021
Bachelor of Science in Biology
Minor in Chemistry

Experience

Birthday Party and Events Facilitator September 2021 - February 2023
Houston Arboretum and Nature Center - Houston, TX

- Educated event and birthday party visitors on the Houston native habitat, fostering a deeper understanding and appreciation for the local ecosystem.
- Delivered interactive material, engaging visitors of all ages in learning activities and discussions about native plants, wildlife, and conservation.

Summer Camp Educator June 2022 - August 2022
Houston Arboretum and Nature Center - Houston, TX

- Conducted educational programs for children aged 4 to 12, as well as groups ranging from 12 to 20 individuals.
- Developed and delivered relevant material on ecological, environmental, and historical topics pertaining to Houston.
- Facilitated interactive learning experiences and promoted environmental awareness.

Field Work Internship August 2019 - March 2019
University of New Mexico Biology Department - Houston, TX

- Participated in field work activities such as planting sunflowers, conducting herbivory counts, and harvesting sunflowers.
- Gained practical experience in data collection and field research methodologies.

Ecology Lab Internship June 2019 - August 2019
University of Houston Biology Department - Houston, TX

- Worked as an intern in an Ecology Lab funded by the National Science Foundation.
- Conducted research on the impact of climate change on coastal dune ecosystems and microbiomes, specifically focusing on Gulf Coast dune grass foundation species shifts.
- Collected and analyzed data and contributed to research reports.

Ecology Lab Volunteer August 2018 - December 2018
University of Houston Biology Department - Houston, TX

- Assisted in an Ecology Lab that focused on studying the relationships between microorganisms and plants.
- Collaborated with team members on research projects and experiments.
- Developed a solid understanding of lab protocols and procedures.
